

TEA Approved Education Support Service Provider:

Service	Description
	<p>Designed to support all schools in a district or campus feeder pattern, school and district teams participate in workshops and/or consultation with exclusive access to student academic growth data, based on the state’s approved model for measuring equity growth. The data helps schools identify growth outcomes by schools, subject, grade, and student group. Schools and districts are able to determine what factors contribute to student growth and develop school-specific action plans to improve outcomes and growth for every student.</p> <p>3D Growth strongly aligns with the Effective Schools Framework levers Strong School Leadership and Planning, Effective, Well Supported Teachers and Effective Instruction.</p>
	<p>School teams participate in collaborative workshops and consultation services to engage research-validated tools to develop systems and processes that support success for English Language Learners. The ExcELL process takes research based strategies and turns them into proven practice. Each campus will develop and implement an actionable plan to increase achievement for ELLs. E3 ExcELL strongly aligns with all of the Effective Schools Framework levers.</p>
	<p>A proven, multi-year, whole-school transformation process integrating and aligning systematic support for students, teachers and leaders in elementary and middle schools. Participating campuses engage in partnership that involves whole-campus professional learning, on-site campus coaching for leaders and collaboration with a regional professional learning community with leaders from other participating schools.</p> <p>RAISE^{UP} Texas strongly aligns with all of the Effective Schools Framework levers.</p>
<p><i>E3 School Culture</i></p>	<p>Campus culture directly impacts student outcomes. By doing a deep dive into campus culture, campus leadership teams will engage in collaborative workshops and/or consultation that involves a study of school culture, develop the content of their school culture, learn about tools for building culture and build an action plan focused on improving their campus culture. Improved campus culture results in improved student outcomes including achievement, discipline and attendance.</p> <p>E3 School Culture strongly aligns with the Effective Schools Framework levers Strong School Leadership and Planning, School Culture, and Effective, Well Supported Teachers.</p>
<p><i>Campus Strategic Planning</i></p>	<p>School leaders engage in reflective evaluation of current campus practice and effective implementation and monitoring of current plans. Campus teams will learn about systems thinking and process mapping and receive support/consultation to set goals and develop strategic plans for school improvement to meet goals for student success.</p> <p>Campus Strategic Planning strongly aligns with the Effective Schools Framework levers Strong School Leadership and Planning and Effective instruction.</p>

*Building
Systems for
Effective
Tier 1
Instruction*

Professional learning and consultation for focusing on improving Tier 1 instruction in every classroom to positively impact student learning outcomes. School leadership teams will review campus practices, learn about strategies for improving instruction and develop action plans and monitoring protocols for enhancing instructional leadership systems on their campus.
Building Systems for Effective Tier 1 Instruction strongly aligns to all of the Effective Schools Framework levels.
