**E3 Alliance** is a nonprofit organization, based in Texas, transforming education systems through data and collaboration so **all students succeed**. This overview includes a brief description of each service we provide, including custom, professional learning and follow-up coaching for leadership, faculty and staff at the district and campus levels.

**TEA Effective Schools Framework Levers**
As a TEA Full Service School Improvement Provider, E3 Alliance services are aligned with the prioritized levers of the Effective Schools Framework.

- **Prioritized Lever 1**
  STRONG SCHOOL LEADERSHIP AND PLANNING

- **Prioritized Lever 2**
  EFFECTIVE, WELL-SUPPORTED TEACHERS

- **Prioritized Lever 3**
  POSITIVE SCHOOL CULTURE

- **Prioritized Lever 4**
  HIGH-QUALITY CURRICULUM

- **Prioritized Lever 5**
  EFFECTIVE INSTRUCTION

**E3 Alliance Services**

**3D Growth**

District and campus teams engage in a collaborative process with exclusive access to data designed to measure academic growth of students compared to their demographic peer group in the state of Texas. The data helps analyze student performance outcomes at the school, subject, grade, and teacher levels. Teams use the data to evaluate the current practices and systems on their campus and build an action plan that ensures growth for every student.

**EXCELL**

District and campus teams engage in collaborative workshops and receive consultation services to develop systems and processes that support success for English Learners. The ExcELL experience begins with a research-based tool (ELL Rubric) and guides teams through the development and improvement of systems and practices designed to support increased achievement for all English Learners on their campus.
### E3 Alliance Services

#### School Culture
District and campus teams engage in a protocol to deeply study culture components and evaluate their own culture. Moving beyond simply defining culture, the teams are provided with tools and strategies for leading strategic culture work on their campus, optimizing the learning environment by supporting improved climate, attendance and achievement for all students.

#### Campus Strategic Planning
District and campus teams engage in reflective evaluation of current campus practice, data and effective implementation and monitoring of current improvement plans. Campus teams will learn about systems thinking and process mapping to set goals and develop strategic plans for school improvement for the current school year and beyond.

#### BUILDING SYSTEMS FOR EFFECTIVE TIER 1 INSTRUCTION
District and campus teams will engage in collaborative learning and receive consultation and support focusing on improving Tier 1 Instruction and positively impact student learning outcomes. Teams will be guided through a process to closely examine current campus practices, learn about strategies and systems for improving instruction and develop action plans and monitoring protocols for enhancing instructional leadership systems on their campus.

#### Attendance
District and campus teams engage in learning about chronic absenteeism and its relationship to student performance outcomes. Teams will participate in a guided evaluation of their own district and/or campus practices through the lens of conditions that impact student attendance and collaborate on an action plan to make improvements that, ultimately, support increased student achievement outcomes.
