**E3 ExcELL** uses a research-based tool that guides teams to develop and improve practices. Teams leave with a plan to enrich outcomes for English Language Learners.

Workshop and support services where leaders and teams will:

- **Learn** why focusing on English Language Learners (ELL) is critical for success.
- **Study** the ELL Rubric to evaluate the current campus practices and select focused goals.
- **Develop** a Campus Instructional Playbook, a shared leadership tool for improving instruction across all classrooms.
- **Study** a systematic approach for leading campuswide, focused practice of micro-skills to improve instruction.
- **Understand** and develop systems of instructional leadership for curriculum, assessment, teacher collaboration, and classroom instruction.
- **Engage** in a process to evaluate campus culture, elevate action plans and ensure successful implementation.
- **Create** an actionable, detailed plan to lead change for your campus.

E3 Alliance values shared leadership and designs workshop experiences so they are intentionally integrated with collaboration and processing time for leaders and teams.
